

WINTER WONDERS CAMP!

JANUARY 2ND & 3RD, 2025

8:30 AM - 3:30 PM | AGES 5-7 / GRADES K-2

Winter can be a wild time!

Enroll your kids in this 2-day nature learning camp!

Join the Santa Cruz Museum of Natural History to learn about the seasons, the weather, and how plants and animals adapt to survive the wintertime. Explore nature, create art, and make new friends while learning about local natural history!

Our *Winter Wonders* camp offers outdoor adventures, nature exploration, and hands-on learning for kids. The camp ends with an Open House to showcase their discoveries. Kids will leave with a sense of wonder and excitement for nature, inspired to be proud protectors of Santa Cruz's natural treasures. Each day focuses on a different theme with art projects, science investigations, and games. We emphasize "leave no trace" ethics and safety in nature throughout the week.
